

CARING FOR SOLERA GLASS

Clean glass sinks regularly to avoid mineral or bacteria buildup. Don't forget to clean the outside of the sink as well! Spots or fingerprints can be cleaned by using a standard glass cleaner. If a glass cleaner is not available, a mixture of vinegar and water will also work. Use a non-abrasive cloth to wipe the sink clean and rinse well. Abrasive cleaners or scouring pads may scratch the glass. Take care when cleaning the exterior of a glass sink as it might have a foil or printed application that could be damaged by scrubbing.

ROUTINE CARE

- Spray the entire sink with a standard glass cleaner.
- With a soft sponge, scrub the interior and exterior of the sink in a circular motion.
- Rinse immediately with pure water and dry.

STREAKS

- Cover sink with a mixture of vinegar and water.
- With a soft sponge, scrub the interior and exterior of the sink in a circular motion.
- Rinse immediately with pure water and dry

SMUDGES

- Wearing protective cleaning gloves, spray the entire surface with an ammonia-based glass cleaner.
- With an abrasive sponge or paper towel, scrub the interior and exterior of the sink.
- Rinse immediately with pure water and dry.
