

CARE AND WARRANTY

Because INSPIRE is non-porous, thorough cleansing with a damp cloth and mild detergent is all that's needed. Repeating once a week to maintain that clean, clear, new look is as simple and easy as it gets.

Stains or Spills Stubborn stains and dried spills can be easily removed with non-abrasive household cleaning supplies, such as Soft Scrub Liquid Gel with Bleach, damp cloths, sponges, and other non-abrasive pads. Anything a bit stickier can be quickly removed with a plastic putty knife.

Cleaning Products to Avoid Cleaning products with pH levels between 5 and 8 are the best choice for cleaning. Anything outside of this range can potentially damage your INSPIRE surface, but quickly neutralizing with water and wiping with a damp cloth is a quick and easy solution to harmful exposure.

Heat Resistance While INSPIRE is more heat resistant than other types of stone, such as granite, placing hot pads or trivets between hot cookware and your INSPIRE surface can prevent damage caused by rapid, extreme temperature fluctuations.

Tough, but not Indestructible Refrain from exposing INSPIRE® to extreme stress such as cutting knives, home improvement tools, hot cookware, and abrasive chemicals. Using cutting boards, hot pads, non-abrasive chemicals are an easy way to always keep your INSPIRE surface clean, clear, and new.
